

COVID-19 UPDATE

January 19, 2022

Dear Splendido Residents,

We wanted to inform you that we have learned that **two employees in Independent Living and an employee who works in Sonora have tested positive for COVID-19**. Note that this is our first time reporting these cases; these have not been reported in a previous letter. We wish these individuals a speedy recovery.

Splendido is interviewing these individuals to determine if they were in close contact with residents and/or other employees (meaning within 6 feet of anyone for more than 15 minutes).

REMINDER FOR CORONADO RESIDENTS:

We ask that residents in Coronado assisted living refrain from interacting with residents in independent living, and pause on attending independent living programs.

Take care and stay well.

Sincerely,

James C. Edwartoski
AVP & Executive Director

PS: Please note that this letter is being shared with all residents' current emergency contacts.
